

# The ERLE

## The ERLE

**The Edema Reduction Leg Elevator decreases lower extremity swelling in the days before and after surgery.**

- Applicable across various lower extremity cases
- Gentle elevating draft allows knee flexion and foot elevation above the heart
- Comfortable, soft, and tissue friendly for prolonged use after rehab

**FREE  
Samples**

available upon  
request.

Now available  
for patients to  
order online at  
[bonefoam.com](http://bonefoam.com)

*“Throw out the bed pillows  
and reposition patient care with  
stable post-op leg elevators.”*
